

WOLF LOCK

EASIER, SAFER & MORE SECURE

WOLF LOCK

The Wolf Lock premium hire container is a tri locking system with vault like security and a safety exit feature exclusive to Royal Wolf.

Containers fitted with the Wolf Lock provide the same secure, weather and vermin proof storage as conventional containers, but with two big advantages - they are easier to open for fast, regular access and they can be opened from inside the container in case of accidental door closure.

If you want to access your stored goods regularly, if you want to reduce the possibility of injury, or have multiple people accessing the container and therefore at risk of accidental door closure, the Wolf Lock premium container is the perfect solution for your storage needs.

The Wolf Lock can be easily opened with a single motion using light pressure and there is no bending or stress involved. From the inside, the emergency exit handle is fitted with a glow in the dark label so it can be easily located in the event someone is in the container when the door is closed.

PRODUCT BENEFITS

- No bending to open the door reducing the risk of manual handling injury at work
- Safety exit feature - preventing lock-in
- Doors open easily using one hand
- Exclusive Royal Wolf patent pending design
- Ability to use Royal Wolf block lock

WHAT IS THE DIFFERENCE BETWEEN A WOLF LOCK CONTAINER AND A STANDARD CONTAINER?

The Wolf Lock premium container has significantly greater security than a standard container, easier access and a unique safety exit feature.

WOLF LOCK

QUESTIONS & ANSWERS

HOW SECURE IS THE WOLF LOCK?

The Wolf Lock offers vault-like security by securing the door of the container at three points. It is a patent pending design, exclusive to Royal Wolf and offers the highest level of security on the market.

HOW DOES THE WOLF LOCK PROVIDE EASIER ACCESS?

Unlike standard containers, Wolf Lock premium containers can be opened with one hand. You don't have to bend to open the door, reducing the risk of back injury. Ideal for situations where you need fast, regular access.

WHAT IS THE UNIQUE SAFETY EXIT FEATURE?

Unlike other containers, the Wolf Lock is able to be opened from inside to provide maximum peace of mind. This is ideal if you have multiple people accessing the container posing a risk of accidental closure.

CAN I ADD A PADLOCK FOR EXTRA SECURITY?

Yes, you can use a standard Royal Wolf block lock (for an additional charge).

WHAT SIZE DOES A WOLF LOCK PREMIUM CONTAINER COME IN?

The Wolf Lock is currently available in a 20ft General Purpose size.

ARE THE WOLF LOCK PREMIUM CONTAINERS WIND, WEATHER AND VERMIN PROOF?

Yes, the Wolf Lock offers the same high level of secure, weather and vermin proof storage as a standard Royal Wolf container.

WHAT IS THE PRICE DIFFERENCE BETWEEN A WOLF LOCK PREMIUM AND STANDARD CONTAINER?

As a premium product, the Wolf Lock costs a little more than a standard container, but with easier access and better security.

IS THE WOLF LOCK FOR EVERYONE?

The Wolf Lock is not suitable for use when transported with goods inside. It is the ideal choice for anyone who wants added security and ease of opening. Royal Wolf's standard range of containers remain the best in the industry for transporting goods by road or rail. They are constructed from heavy grade corrosion resistant steel, fully lockable and versatile for many applications.

Warning: Do not transport a Wolf Lock container unless the container is empty.
