Royal Wolf are the industry specialists in the hire, sale & modification of new & refurbished shipping containers. With over 10 years experience & locations New Zealand wide, we are the largest & most experienced container provider in the country. When dealing with Royal Wolf, you can be confident you're dealing with a professional team who understand the container industry & are committed to finding the perfect solution for you.

Royal Wolf's dedication to product development & innovation has resulted in an extensive product range, with many of our products now the industry standard for their application. Our product range is growing every day as our customers turn to us to assist in creating solutions to suit their individual needs. We can customise our containers to create a tailor

made solution to meet all of your requirements.

As New Zealand's leading supplier of shipping containers, Royal Wolf have provided quality products & services to over 10,000 businesses & individuals. The key to the cost effectiveness of a container is its portability & strength, even after considerable modifications. Royal Wolf's clients are choosing containers as a flexible solution to storage needs & are reaping the rewards of the container's long life.

Contact Royal Wolf for more information on how we can maximise your business' productivity & profitability.

General Purpose

Royal Wolf's general purpose containers offer the perfect solution to most container needs. These containers are available in three sizes, 3m, 6m & 12m (premium condition), or custom made to suit your requirements. Customers can choose from new, used or refurbished containers available in a variety of grades to suit individual requirements & budgets.

Constructed to meet the intense demands of sea travel, Royal Wolf's shipping containers are strong & secure, wind, water & vermin proof, ensuring your items are kept in premium conditions. Offering a simple & economical storage solution, Royal Wolf containers are easily portable allowing for relocation of your container whenever needed.

Ideal for storing personal effects, business documents, sporting equipment, tools & machinery & just about anything else, Royal Wolf can provide the answer to all of your storage needs.

General Purpose

The Royal Wolf product range includes:

General Purpose - the perfect solution to most storage problems.

High Cube - with an extra 30cm height, the High Cube container allows more room for storage & is ideal for larger items.

Pallet Wide High Cube - combines the extra height of a High Cube, with an extra 6cm width to allow two standard pallets to sit side by side on the floor.

The High Cube & Pallet Wide products are of great value to the New Zealand domestic transport & removal industries as they allow a larger storage capacity without a significant increase to the external container dimensions.

In addition to our standard storage containers, Royal Wolf has the ability to accessorise & modify to your needs.

Limited Space Storage Solutions

Royal Wolf offer two Limited Space Storage Solution products that provide strong & secure portable storage, ideal for use as a storeroom, garden shed or worksite storage, amongst a number of other applications.

At just 2.3m by 2.3m, Royal Wolf's Minicube container is less than half the size of a standard shipping container enabling it to fit in tight spaces with a small footprint. It includes vents top & bottom of side walls & features an internal emergency door release.

Royal Wolf's 10' Pallet Wide container offers an extra 30cm height & 6cm width than a standard shipping container, whilst providing a storage option for those with limited space. Whilst the height is ideal for larger items, the extra width provides just enough room to fit two standard pallets side by side on the floor.

Manage the risk of severe penalties for not safely storing hazardous goods & liquids. Royal Wolf's Hazardous Goods & Liquids Storage containers are available in three convenient sizes - 2.3m, 3m & 6m. Easily portable & robust, these containers are available for hire or purchase & are the ideal solution to ensure your dangerous goods are kept safe & secure.

Complying with HSNO Regulations, our Hazardous Goods & Liquids Storage containers are the ideal storage units for paint, thinners, oils, diesel & class 3 flammables. Royal Wolf can build to client specifications or Class requirements. These containers can be equipped with an internal door release as an additional safety feature.

In addition to providing solutions for hazardous goods & liquids storage, Royal Wolf's containers are a valuable storage source for non-hazardous liquids where there are risks associated with spills & slips.

Worksite Solutions

Royal Wolf's Worksite Solutions range offers a variety of products that make it easy to satisfy your work space & amenity requirements no matter the location. Ideal for short or long term projects in industry or community settings these units include offices, lunch rooms & change rooms.

Two Storey - The ability to be stacked on top of one another with an easily available locking device makes Royal Wolf's Worksite Solutions range perfect for creating maximum space whilst utilising minimal land area.

Convenient - Royal Wolf buildings are transport industry compliant to allow delivery at any time that is convenient for you.

Secure - Constructed from solid steel & cyclone rated, these buildings are extremely durable & are highly secure for total peace of mind.

Space Efficient - Our carefully designed & fully insulated buildings ensure you have everything you need along with the space your personnel require.

Manoeuvrability - The buildings are easy to manoeuvre & can be situated on a variety of ground surfaces & platforms.

Comfort With Optional Extras - Our carefully designed buildings ensure you have everything you need with optional toiletry consumables.

Refrigerated Storage

Royal Wolf has a range of Refrigerated containers available to fulfill all of your cold storage needs. Available for hire or purchase, all of our containers are maintained to the highest standards & can be fully installed by a qualified refrigeration mechanic, to ensure convenience & safety.

All Refrigerated units are inspected prior to delivery with a 24/7 breakdown service available in metro areas (approximately 50km). Our containers are robust, safe & secure offering food grade quality in a thermostatically controlled environment.

Refrigerated containers can be modified to suit your requirements with options including alarms, digital displays & an Ezi Enta door which enables easy access to goods, eliminating the time & effort involved in opening double doors.

Royal Wolf strive to create innovative products for the Road & Rail industry by investing in product research & development. We ensure the best selection for transportation companies by constantly improving product design & creating innovative new products that increase productivity & profitability.

Royal Wolf stock specialist products including side opening & curtain side containers, which are units of choice for leading transport companies. With the widest range of specialised Road & Rail products in New Zealand & the dedication to develop products that meet the specific demands of our clients, Royal Wolf enable companies to become more competitive.

Royal Wolf stock a wide variety of high cube & pallet wide products that enable two standard pallets to sit side by side on the floor. These products are ideal for New Zealand transport companies & are available across the New Zealand wide Royal Wolf network.

Removals

Royal Wolf is the leading container supplier to the New Zealand removals industry. With over ten years experience & product innovations designed to suit the specific needs of removalists, Royal Wolf is the number one choice in containers.

Royal Wolf offers an unrivalled capacity to allow the transfer of containers & associated costs between branches & agents, & facilitate one way hire & inter island repositioning. This is made possible by our web-based Container Tracking System, powered by software developed by Moveware.

The strategic positioning of Royal Wolf's depots & agents enables us to provide quality containers throughout New Zealand for short term & long term hire, modifications & sales.

By purchasing thousands of new containers each year, Royal Wolf have developed a fleet replacement program to ensure we have the youngest fleet in the container hire market.

As an approved Defence supplier, Royal Wolf designs, engineers & manufactures purpose built containers to meet the exacting standards of the Defence Force, with several designs leading the market.

The product range includes command posts, IT units, ablution & laundry units, bi-cons, tri-cons, air cargo pallets, workshops, bin pack/q-store units, 8 man personnel carrier, stores & ammo units & explosive magazines. Full ventilation systems for temperature control in extreme conditions, recessed door bar ladder systems for accessing the rooftops & full drop down sides to increase surface area by up to 180 percent can be included.

All modified containers stay within ISO shipping & transport configurations, to maintain ease of transportation. Prompt & reliable delivery across New Zealand is available through Royal Wolf's national network of supply centres.

Accessories

Royal Wolf offer a large range of accessories to transform a container to suit your specific requirements.

Accessories can include padlocks & lockboxes for increased security, ramps for easier access, windows with optional security bars to allow natural light, power & lighting, customised shelving to suit your needs, painting to suit your environment, sign writing for promotional units, ventilation including whirly birds & air conditioners, double & single doors including roller doors to ease entry & plumbing.
